Six Elements of Classical Education School Website Audit

School: Treasure Coast Classical Academy

School Website: <https://treasurecoastclassical.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

Overall Classification: CLASSICAL

Executive Summary

Treasure Coast Classical Academy (Stuart, FL, 34997) presents public materials that are not currently accessible for content analysis—the school’s site appears to be returning a Cloudflare 500 error, meaning there is no usable text to extract keywords or statements about its religious foundations, purpose, curriculum, pedagogy, faculty, or parent/community practices at this moment. This lack of accessible public content prevents demonstrating the classical criteria defined in the Six Essential Elements of a Classical School (1) through direct textual evidence from the school’s own site. The relevant public material that can be meaningfully cited from the accessible corpus is therefore limited to the absence of substantive site content rather than explicit language endorsing a classical program. The six-category rubric will therefore reflect the absence of explicit, on-site classical indicators rather than the presence of them. The aggregate classification, given the current publicly available crawl content, is NOT CLASSICAL.

Evidence for the above assessment includes the publicly crawled material showing a Cloudflare 500 error when attempting to load treasurecoastclassical.org, which provides a concrete data point that no classroom, curricular, or community language from the site could be retrieved at this time.

For reference, the knowledge-base rubric (Six Essential Elements) defines the core classical indicators, including explicit mentions of truth, goodness, beauty, virtue, the Great Books/Great Conversation, grammar-logic-rhetoric, and liturgical/community life. Notable positive keyword anchors include terms such as truth, goodness, beauty, virtue, wisdom, great conversation, and formation of the soul, among others. The rubric also foregrounds the importance of Great Books, scholé (restful, contemplative learning), Socratic pedagogy, and a liturgical or communal dimension as core signals of a classical program. Evidence-based statements of those signals, however, cannot be drawn from the public site content at this moment due to the site’s current inaccessibility. See the Six Essential Elements document for the keyword framework.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL

- Evidence: The school’s public site content could not be retrieved due to a Cloudflare 500 error on treasurecoastclassical.org, leaving no explicit statements about transcendental moral realism, theology, or liturgical/community practices on the accessible crawl.
- Positive/Negative keyword analysis: 0 positive keywords found; 0 negative keywords found (no textual material to analyze). The rubric’s positive keyword framework includes terms such as truth, goodness, beauty, virtue, wisdom, and references to theology or liturgical life; none could be drawn from the accessible content.
- Why this rating: Without accessible site language affirming transcendental moral realism, theological grounding, or liturgical/community practice, there is no textual evidence from the school’s public materials to support the Religious and Metaphysical Foundations signals. The category therefore remains NOT CLASSICAL given the current data gap.

Element 2: School Purpose and Goal — NOT CLASSICAL

- Evidence: No explicit site text about the school’s aims (virtue formation, formation over information, or the cultivation of truth, goodness, and beauty) could be read from the crawl due to the site error.

- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords (no content to analyze). The positive keyword set includes terms like virtue, wisdom, formation of the soul, and the real existence of truth, goodness, and beauty; none are evidenced on the accessible site text.
- Why this rating: The absence of explicit public statements about education as formation rather than information, or about pursuing universal truths and human excellence, leads to NOT CLASSICAL at this time.

Element 3: School Curriculum — NOT CLASSICAL

- Evidence: No curriculum language could be retrieved from the public crawl due to the site error. The existence of a classical curriculum (grammar, logic, rhetoric; Great Books; history across the curriculum; cultivation of wonder) cannot be confirmed from Treasure Coast Classical Academy's current public-facing pages.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords observed (no textual content to evaluate). The Six Elements framework lists essential curricular markers (grammar-logic-rhetoric, Great Books/Great Conversation, history as a through-line, cultivation of wonder) as positive indicators; these cues are not evidenced in the accessible crawl.
- Why this rating: Without accessible site-language tying the school to a liberal-arts-based curriculum and Great Books/Great Conversation dynamics, curricular indicators cannot be demonstrated, yielding a NOT CLASSICAL rating for this category.

Element 4: School Pedagogy or Teaching Methods — NOT CLASSICAL

- Evidence: No explicit pedagogy statements (Socratic seminars, memorization routines, contemplative pedagogy, or ritually informed pedagogy for lower/upper grades) could be found in the accessible crawl due to the site's inaccessibility.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords (no textual content to identify pedagogical methods). The Six Elements framework emphasizes Socratic dialogue in upper grades and contemplative pedagogy (Scholé) in general; these are not evidenced in the current crawl results.
- Why this rating: The lack of public-facing evidence of a classical pedagogical approach (e.g., Socratic discourse, seminars, rhetoric training, or lower-school singing/chanting traditions) leads to NOT CLASSICAL for pedagogy based on available data.

Element 5: School Faculty — NOT CLASSICAL

- Evidence: The crawl has no textual material describing faculty as mentors, the living-curriculum, or portraits of teacher/student archetypes. The site's public content is not accessible for analysis of faculty modeling virtue or collegial teaching.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords (no faculty language to analyze). The Six Elements describe a "living curriculum" and a community of virtuous teachers; none is evidenced in the accessible site crawl.
- Why this rating: With no textual evidence of faculty as moral exemplars, living curriculum, or a defined teacher-student archetype on the public site, the rating remains NOT CLASSICAL for Faculty.

Element 6: School Parents and Community — NOT CLASSICAL

- Evidence: The crawl yields no public statements about parent partnerships, parent-education programs, or welcome visits (the site is currently inaccessible in the crawl).

- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords (no content to analyze). The Six Elements emphasize parent partnership, co-teaching, parent education, and open visits; these signals are not evidenced in the current crawl data.
- Why this rating: Absence of public language about parent and community engagement leads to NOT CLASSICAL for Parents & Community at this time.

Aggregate assessment: NOT CLASSICAL

Given the current publicly accessible crawl results for Treasure Coast Classical Academy (Stuart, FL, 34997), there is insufficient textual evidence to confirm classical education signals in any of the six categories. The classical rubric in the knowledge base clearly expects explicit mentions of a transcendental moral framework, a theology-grounded foundation, a liturgical/communal dimension, a classical liberal-arts curriculum (grammar-logic-rhetoric), Great Books/Great Conversation, contemplative scholé, Socratic pedagogy in higher grades, and an explicit living curriculum embodied by faculty and a partner-parent/community ecosystem. The absence of accessible site content prevents a positive identification against these criteria. See the Six Essential Elements for the keyword framework used to determine presence/absence of classical signals.

What Would Move the Needle

- If the school publishes and makes publicly accessible on its site clear statements of:
- a transcendental moral realism and theology-driven worldview (truth, goodness, beauty; virtue formation; sacred traditions), with explicit reference to liturgical or communal practices; and
- explicit articulation of formation-focused goals (virtue, wisdom, human flourishing) rather than merely occupational preparation,
- a classical curriculum map showing grammar-logic-rhetoric; the Great Books/Great Conversation; continuous history integration; and a cultivated sense of wonder,
- a pedagogy that includes Socratic seminars for upper grades, contemplative/Scholé practices, and opportunities for rhetoric through speaking and writing;
- a clearly defined faculty profile as mentors and living curriculum and a well-documented, ongoing, visible partnership program with parents and the community (parent education events, regular visits, and co-teaching opportunities); Then the school would begin to move toward CLASSICAL across the six categories.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
