

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Trinity Academy
School Website: <https://trinityacademy.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

SCL MEMBER

Any school that belongs to the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because SCL requires adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Trinity Academy NC 27613 appears in the crawl data as a public-facing school site, but the only accessible crawl artifact for this school currently returns a Cloudflare 500 error, offering no substantive public material to analyze beyond the domain. Because no textual materials from the school's site are available to examine (evidence shows an internal server error for trinityacademy.com), there is no explicit public declaration of religious foundations, curriculum structure, pedagogy, or community practices to evaluate against the classical rubric. This severely limits the ability to identify classical indicators on the ground from the site itself.

In light of the absence of textual public materials, the keyword analysis for all six categories yields no positive indicators and no negative indicators from Trinity's site content. Therefore, using the Six Essential Elements of a Classical School rubric as implemented by the knowledge-base lexicon, the category-by-category assessment cannot affirm classical features based on public textual evidence. Consequently, the aggregate rating is NOT CLASSICAL, given the lack of demonstrable classical signaling in the school's public materials accessible via the crawl.

Notes and grounding: - Public content for Trinity Academy NC 27613 could not be retrieved due to an active Cloudflare error on the school's site, which prevents extraction of evidence to support any of the classical criteria. See the firecrawl artifact showing the domain and the 500 error. - The classical-school rubric draws on explicit textual signals (e.g., references to truth, virtue, scholé, Great Books, Socratic pedagogy, liturgical life, Great Conversation) drawn from the Six Essential Elements documentation. Absent identifiable site content, no positive keywords could be matched against the lexicon.

Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — NOT CLASSICAL
- Evidence: No public textual evidence from Trinity's crawl; domain-level access shows a 500 error with no substantive content to analyze for liturgical life, theology, or metaphysical commitments.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords (no public material to scan against the lexicon). Based on the absence of text, there is no basis to affirm transcendental moral realism or liturgical practice from the site.
- Why this rating: The rubric requires explicit textual signals of religious/metaphysical foundations; none are accessible due to the crawl's content gap.
- Element 2: School Purpose and Goal — NOT CLASSICAL
- Evidence: No accessible textual material to verify formation-focused aims (virtue, wisdom, scholé, Great Conversation) within Trinity's public materials.

- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords (no content to compare with the lexicon).
- Why this rating: Without textual claims about forming virtue or transcendent aims, the school cannot be demonstrated as classical on this criterion.
- Element 3: School Curriculum — NOT CLASSICAL
- Evidence: No curriculum details available from the crawl due to the 500 error; cannot confirm grammar/logic/rhetoric, Great Books, or Great Conversation signals on Trinity's site.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords.
- Why this rating: The absence of explicit curriculum statements (grammar, logic, rhetoric, Great Books, etc.) prevents a classical-curriculum classification from the public site materials.
- Element 4: School Pedagogy or Teaching Methods — NOT CLASSICAL
- Evidence: No accessible pedagogical descriptions (e.g., Socratic discussion, scholé days, memory work, chanting, or rhetoric training) from Trinity's site in the crawl.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords.
- Why this rating: Absent textual evidence of classical pedagogy, the school cannot be demonstrated as classical pedagogy-based from public materials.
- Element 5: School Faculty — NOT CLASSICAL
- Evidence: No accessible faculty descriptions (model teachers, "living curriculum," portrait of a teacher, etc.) from the crawl.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords.
- Why this rating: Without public statements or content about faculty philosophy or culture, cannot confirm a classical faculty model.
- Element 6: School Parents & Community — NOT CLASSICAL
- Evidence: No accessible parent/community materials on the Trinity site within the crawl.
- Positive/Negative keyword analysis: 0 positive keywords; 0 negative keywords.
- Why this rating: Unable to verify partnership with parents, parent formation opportunities, or community patterns from public site materials.

What Would Move the Needle (only relevant if SOMEWHAT CLASSICAL) - Not applicable: No category is classified as SOMEWHAT CLASSICAL. The aggregate classification is NOT CLASSICAL due to lack of evidence across all six categories.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
