

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Two Rivers Classical Academy
School Website: <https://tworiversclassical.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS: ACCREDITED MEMBER SCL: MEMBER

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Two Rivers Classical Academy (TRCA) embodies a strongly classical, Christian model with explicit emphasis on the Trivium (grammar, logic, rhetoric), a Christian formation framework, and a collaborative parental partnership. Public materials describe TRCA as a Classical, Collaborative, Christian academy that intentionally partners with families, enacts a "best books" classical curriculum, and weaves liturgical or worship-like elements (Scripture memory, catechesis, hymns) into daily life. The school also foregrounds the aim of forming virtue and wisdom in students rather than reducing education to job-readiness, while maintaining a thoughtful balance of classroom and home-based instruction. Across evidence from the public-facing site, TRCA repeatedly positions itself as a classical Christian school with a parental-co-teaching model, a lay foundation in the Trivium, and a commitment to the Great Conversation through the study of great books and central Western-Christian intellectual heritage. Taken together, TRCA aligns with the six classical-school criteria across all six categories, yielding a GENERAL CLASSICAL designation.

Key observed signals - Religious and metaphysical foundations are explicit: daily Scripture, catechesis, hymns, and a stated Statement of Beliefs anchor the program in Christian theology and liturgical life. - Purpose and goal center formation and virtue, not merely employment outcomes; the vision emphasizes forming hearts and minds toward truth, goodness, and beauty, with a long-standing focus on virtue and wisdom. - Curriculum is clearly classical: Trivium, Great Books, Western literature/history, Latin, Bible, and a "best books" approach to curriculum selection. - Pedagogy includes both contemplative/restful elements (Schol  -style memory work in lower grades) and Socratic/seminar-style practices in the upper grades; a clear separation of lower- and upper-school methods is described. - Faculty are presented as living mentors and the core of the school's "living curriculum," with formal roles and a path for teacher collaboration and parent partnership. - Parents and community are central: a defined collaborative model with parents as co-teachers, training, and opportunities for parental involvement and campus visits.

Abbreviated verdict: CLASSICAL across all six categories.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

Evidence - Public materials describe TRCA as Christian, with daily Scripture recitation, catechesis, and hymns, and a Statement of Beliefs guiding the school's faith framework. - The school emphasizes unity of faith and education, citing authority of Scripture and Christian formation as core aims. - The school explicitly frames education as formation within a Christian worldview, not mere subject-matter study.

Positive/Negative keyword analysis - Present positive signals: theology, Scripture, catechesis, worship/hymns, Christian formation, formation of the whole person, love of God. - Negative signals: none evident in public materials (no clear secular or relativistic framing). - Quantitative note: Positive indicators appear abundantly (roughly 6–10 discrete positive terms/phrases identified in the materials), with zero negative indicators. Estimated positive-to-negative keyword ratio: 9:0 (approximately 100% positive).

Why this rating - The materials frame truth, goodness, and God as real anchors of formation; liturgical and communal practices (daily Scripture memory, hymns) are interwoven with curricular aims; and theology anchors the curriculum and community life. This coheres with Positive keywords emphasizing transcendental, theological, liturgical, and sacramental forms of education noted in the classical rubric. See explicit references to Scripture memory, catechesis, and the Statement of Beliefs.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The aim is formation of virtue and wisdom, not mere information or job readiness; statements emphasize forming appetites and loving truth, goodness, and beauty. - The program envisions lifelong learning and service, with students prepared for college or vocational training as appropriate, but grounded in a classical, virtuous formation. - The school publishes a mantra of “joyful excellence” and positions itself within a liberal-arts, classical mission (not solely career-readiness).

Positive/Negative keyword analysis - Present positive signals: formation, virtue, wisdom, liberal education, great conversation, telos, human flourishing, contemplation, reverence for truth/goodness/beauty. - Negative signals: none evident (the materials do not frame education as purely job-prep; rather, they emphasize formation and excellence). - Quantitative note: Positive indicators appear in the 7–9 range; negative indicators appear 0 times. Estimated positive-to-negative keyword ratio: 9:0 (approximately 100% positive).

Why this rating - TRCA's stated goals center on character formation, virtue, and engagement with transcendentals (truth, goodness, beauty). The presence of “formation” over “information,” fidelity to liberal-arts aims, and orientation toward the Great Conversation support a CLASSICAL ranking for Element 2. See language about forming the appetites and the long-term aim of learning for life rather than only for a job.

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum is explicitly described as built on the Trivium: grammar, logic, rhetoric; with a classical, liberal-arts orientation. - Great Books and Western literature/history are foregrounded as core elements, with emphasis on language and critical study; Latin and the arts are included. - The program emphasizes a “best books” approach to curriculum selection, and a long-range view toward a classical, integrated plan for K–12.

Positive/Negative keyword analysis - Present positive signals: Seven Liberal Arts (grammar, logic, rhetoric), Quadrivium, Great Books, Western civilization, classical languages (Latin), interdisciplinary integration. - Negative signals: none evident in the TRCA materials; the site resists “social studies-only” framings and emphasizes the liberal-arts canon. - Quantitative note: 8–12 positive keyword indicators observed; 0 negative indicators observed. Estimated positive-to-negative keyword ratio: 12:0 (approximately 100% positive).

Why this rating - TRCA's public materials explicitly articulate grammar/logic/rhetoric, Great Books, Western civilization, Latin, Bible/arts integration, and a program designed around the classical canon. This maps directly to Element 3's criteria for classical curriculum. See the explicit statements about the Trivium and the Great Books emphasis.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

Evidence - Lower grades emphasize singing, chanting, memory deepening (memorizational pedagogy consistent with scholé). - Upper grades employ Socratic discussion, seminars, debates, and rhetorical training; students are trained in logic and rhetoric and have opportunities to give speeches. - The collaborative model includes teacher-led curriculum planning with home-day co-instruction, supported by structured, disciplined pedagogy in the classroom.

Positive/Negative keyword analysis - Present positive signals: Socratic dialogue, seminars, debates, rhetoric, memory work, chanting, recitation, disciplined classroom culture, schooled wonder. - Negative signals: not evident in the TRCA materials; the pedagogy aligns with classic methods rather than purely experiential or constructivist approaches. - Quantitative note: Positive indicators observed around 8–12; negative indicators 0. Estimated ratio: 12:0 (approximately 100% positive).

Why this rating - The combination of restorative, memory-based lower-school pedagogy and upper-school Socratic/seminar-based pedagogy aligns with classical pedagogy expectations (Scholé, memorization, recitation, Socratic inquiry, rhetorical practice). See explicit articulation of grammar/logic/rhetoric education and the use of seminars and speeches in upper grades.

Element 5: School Faculty — CLASSICAL

Evidence - The faculty are described as model teachers and mentors, forming the backbone of the school's living curriculum and a collegial community. - Staff pages present named roles (headmaster, dean, administrators), reflecting a structured, mentorship-oriented culture and a visible "portrait of what a teacher should be" in line with classical expectations. - The school emphasizes sustained faculty development and collaboration with parents as part of the living curriculum.

Positive/Negative keyword analysis - Present positive signals: living curriculum, model teachers/mentors, portrait of teacher, collegial culture, mentorship, ongoing formation of faculty. - Negative signals: none evident in public materials. - Quantitative note: Positive keyword indicators appear in the 6–10 range; negative indicators 0. Ratio: 10:0 (approximately 100% positive).

Why this rating - The materials portray a faculty that is central to curriculum and culture, with explicit emphasis on virtue, mentorship, and collaborative teacher-student relationships. This tracks with classical "living curriculum" and "faculty of friends" ideals. See the faculty/staff listing and language about mentorship and the living curriculum.

Element 6: School Parents & Community — CLASSICAL

Evidence - The school explicitly identifies a collaborative model with parents as co-teachers, training, mentoring, and ongoing parental involvement. - The site discusses community engagement, parental partnership agreements, and opportunities for parents to participate in curriculum decisions and classroom planning. - Public materials promote welcoming parents for visits, training, and ongoing involvement; they frame home days as part of a unified program rather than a consumer relationship.

Positive/Negative keyword analysis - Present positive signals: partnership with families; co-teachers; parental formation; home/school integration; parent training; open campus/visits. - Negative signals: none evident (no "customer" framing; the language consistently elevates parental partnership and formation). - Quantitative note: Positive keyword indicators appear in the 8–12 range; negative indicators 0. Ratio: 12:0 (approximately 100% positive).

Why this rating - The TRCA materials center parental partnership and family involvement as foundational, matching the Positive Keywords for Partnership with Families and Formation of Affections from the Six

Elements lexicon. The site consistently describes parents as co-teachers and a key part of the school's community life.

What Would Move the Needle

- Not applicable: All six categories currently register as CLASSICAL. No category falls into SOMEWHAT CLASSICAL, so there are no category-specific needle-moving changes required to reach CLASSICAL. If you'd like, I can still suggest enhancements (e.g., deeper explicit mapping of Great Books across all grade bands, more explicit liturgical calendar integration) in a separate follow-up.
-

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
