

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Veritas Academy
School Website: <https://veritasacademyca.com>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix for more details.

ACCS MEMBER

Any school that belongs to the Association of Classical Christian Schools (ACCS) is, by definition, recognized as a classical school because ACCS require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Veritas Academy CA 92122 presents a robust classical education profile anchored in Christian formation. Public materials from the school emphasize a Trivium-Quadrivium curriculum, a formation-centered purpose, and pedagogy that blends contemplative, memory-based practices in the lower grades with Socratic, rhetoric-focused instruction in the upper grades. Leadership pages frame teachers as core to the living curriculum, and parent partnerships are foregrounded as a key element of the school's community model. Collectively, these signals align strongly with classical education as defined in the Six Essential Elements framework. Overall classification: CLASSICAL.

Key takeaways - Religious and metaphysical foundations are foregrounded through explicit Christian framing and a doctrinally resonant education approach (e.g., Christian formation, Trivium/Quadrivium). Evidence includes explicit statements about Christian education and the Trivium/Quadrivium framework. - The school's purpose centers on formation and virtue rather than mere information or job preparation, with language pointing to formation of character and a Christian telos. - Curriculum centers on the liberal arts (grammar, logic, rhetoric) and the Trivium/Quadrivium, signaling a classical curriculum architecture. - Pedagogy is distinctly classical: lower grades engage in memory-based and chant-like activities; upper grades employ Socratic discussion, seminars, and rhetoric-focused activities. - Faculty are presented as living exemplars and core to the school's mission; leadership materials emphasize classical-formation orientation. - Parents and community partnerships are central, with explicit calls for family involvement and open engagement, indicating a co-educative model.

Note: This assessment draws on both the school's crawl content and the classical-education rubric provided in the knowledge vector (including the Six Essential Elements document). The Positive/Negative keyword framework from the classical rubric is applied to each category to determine a category rating and an overall aggregate classification.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - The school explicitly identifies itself as Christian and Christian classical education is repeatedly described by leadership. For example, leadership materials characterize the school as "classical Christian education" and emphasize a Christian worldview in a classical framework. - The Trivium/Quadrivium framing is tied to a theological perspective, with language indicating God-centered learning and formation. The site notes that Trivium and Quadrivium are integral to how students engage with creation in a Christian context.

- The Head of School page and leadership materials foreground spiritual formation and a Christian mission within classical education.

Positive/Negative keyword analysis - Present keywords aligning with Positive Indicators: Christian, classical, Trivium, Quadrivium, God (from the phrase about God's masterful creation). These map onto Positive Keywords such as theology, transcendentals, and sacred orientation in the Six Elements lexicon. - Absence or minimal presence of Negative Indicators (e.g., secular relativism) in public materials; the dominant signals are affirmative about Christian formation and classical aims.

Why this rating - The school's public materials center a Christian metaphysical frame and explicitly tie education to formation within a classical, theological context. This aligns with the Positive Keywords in the Six Elements lexicon (theology, virtue, sacred orientation) and with the Transcendental Realism emphasis evident in the school's messaging. The explicit Christian framing and Trivium/Quadrivium focus strongly support CLASSICAL in this category.

Why this matters in the rubric - The presence of a grounded religious/metaphysical foundation is a core driver of classical education as defined by the knowledge base, and Veritas Academy demonstrates this foundation clearly.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - Public materials emphasize formation and virtue as central aims, rather than purely informational or vocational outcomes. The Trivium/Quadrivium framing is tied to a formation-oriented vision, with education described as formation rather than information. - There is explicit language around virtue, wisdom, and moral aims consistent with a classical telos, including references to "formation" and a Christ-centered purpose. - Leadership notes and faculty descriptions reinforce formation, character development, and a moral imagination as educational end-goals. - A Christian-faith lens is also highlighted (e.g., "Maturity in Christian faith"), reinforcing formation as a primary objective.

Positive/Negative keyword analysis - Present keywords: formation, formation/virtue, wisdom, truth/goodness/beauty (conceptually rooted in the Trivium/Quadrivium and the Christian telos), Christian faith. - Negative keywords (as per the Six Elements lexicon) are not strongly evidenced in the public materials; the site's language supports formation over mere information and career readiness.

Why this rating - The school's messaging centers on formation, virtue, and a transcendent telos, aligning with Positive Keywords such as formation, pursuit of truth/goodness/beauty, and liberal education. The Christian framing reinforces a metaphysical grounding for the aim of education, supporting CLASSICAL.

Element 3: School Curriculum — CLASSICAL

Evidence - The Trivium and Quadrivium are named explicitly as core curricular frameworks, with grammar, logic, rhetoric taught as foundational elements and numbers as a focus in the Quadrivium. This is a hallmark of classical curricula. - The public materials describe a curriculum anchored in the liberal arts model, with a central emphasis on the Trivium (grammar, logic, rhetoric) and the Quadrivium (arithmetic, geometry, music, cosmos). - There is clear emphasis on a formation-by-reading/engagement with foundational texts and ideas that aligns with classical curricular aims (e.g., memorization, sequencing of literature and ideas through the Trivium/Quadrivium lens). (Direct textual references to Great Books/Great Conversation are not explicit in the crawl content provided, but the Trivium/Quadrivium framing is strong evidence of a classical curriculum shape.)

Positive/Negative keyword analysis - Present keywords: Trivium (grammar, logic, rhetoric), Quadrivium (arithmetic, geometry, music, cosmos), liberal arts, classical. - The presence of Great Books/Great Conversation is not explicitly stated in the crawl content provided, so those exact terms are not evidenced on the site. The positive curriculum signals nonetheless map to classical indicators.

Why this rating - The explicit articulation of Trivium and Quadrivium and the liberal arts structure aligns strongly with CLASSICAL in the Curriculum category. The absence of a clearly explicit “Great Books” designation in the crawl content does not diminish the overall classical curricular framework, given the strong Trivium/Quadrivium signal.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

Evidence - Lower grades: singing and chanting with regular review and memory work are described as part of lower-school pedagogy, consistent with scholé/restful, memory-strengthening approaches in classical pedagogy. - Upper grades: Socratic discussion, seminars, debates, and rhetoric instruction are described as part of upper-level pedagogy, consistent with Socratic and rhetorical training in classical education. - The overall pedagogy couples contemplative/restful elements with rigorous, discursive, and rhetorical activities appropriate to grade level, matching the classical pedagogy spectrum across K–12. (The site explicitly notes that Socratic education and seminars begin in high school, which is a standard classical pattern.)

Positive/Negative keyword analysis - Present keywords: singing/chanting, memorization, memory-work, Socratic discussion, seminars, debates, rhetoric, oratory, public speaking. - The presence of these explicit pedagogical modes aligns with Positive Keywords in the Six Elements lexicon (narration/recitation, chanting, Socratic/ Paideia seminars, rhetoric and debate). The site’s language aligns with these indicators. - Negative indicators such as exclusive reliance on project-based/constructivist or experiential-only approaches are not evidenced as the dominant pedagogy; the site shows a structured mix aligned to classical methods.

Why this rating - The explicit articulation of lower-school chant/memory and upper-school Socratic/seminar/rhetoric pedagogy matches core classical teaching methods, supporting CLASSICAL.

Element 5: School Faculty — CLASSICAL

Evidence - The leadership pages present a Head of School and a Dean of Academics, signaling strong faculty leadership embedded in the school’s mission. The profiles emphasize a commitment to classical Christian education and educational leadership. - Public materials describe faculty as part of the school’s core, with leadership framing the faculty as responsible for spiritual, strategic, and academic leadership. This aligns with the classical notion of a teacher as a cultivated, virtuous exemplar. - The Six Elements lexicon emphasizes a “portrait of a teacher” and a “living curriculum,” with faculty as exemplars of virtue and curriculum. While not every phrase is verbatim on the site, the leadership and faculty emphasis is consistent with the classical living-curriculum model.

Positive/Negative keyword analysis - Present keywords on site: Head of School, Dean of Academics, leadership, classical Christian education, teacher as leader. - From the knowledge lexicon, positive signals include “portrait of a teacher,” “living curriculum,” and “faculty as mentors” which align with the site’s portrayal of faculty as central to the school’s mission. - Negative signals are not evidenced in the site content (no explicit references to non-classical faculty models).

Why this rating - The school presents a clear faculty-centric model consistent with classical education, where faculty are both exemplar and curriculum, supporting CLASSICAL.

Element 6: School Parents & Community — CLASSICAL

Evidence - The school foregrounds partnership with families and positions parents as co-teachers and partners in the educational project. For example, admissions materials emphasize a healthy partnership with families. - The site indicates efforts to educate parents and engage them through activities like book studies

and gatherings, which aligns with classical emphasis on parent formation and shared mission. The lexicon of the Six Elements includes parent partnerships and family formation as core themes. - The school highlights an open, welcoming stance to parent involvement (e.g., “Veritas Academy community” and opportunities for visits and involvement). The public materials show emphasis on a hospitable, connected parent community. - A donor/community dimension is present, with fundraising pages illustrating parent and community engagement in support of the school’s mission. While not a direct educational practice, this signals a community-embedded model characteristic of classical schools.

Positive/Negative keyword analysis - Present keywords aligned with Positive Indicators: partnership with families, co-teachers, parent formation, home-school integration, parent involvement, community support. - The public materials do not indicate negative signals about parent involvement; the focus remains on partnership, formation, and openness to visits.

Why this rating - The school’s explicit emphasis on parent partnership and community involvement is a strong classical signal for Element 6, supporting CLASSICAL.

Overall Assessment and Aggregate Ranking

- Element 1: Religious and Metaphysical Foundations — CLASSICAL
- Element 2: School Purpose and Goal — CLASSICAL
- Element 3: School Curriculum — CLASSICAL
- Element 4: School Pedagogy or Teaching Methods — CLASSICAL
- Element 5: School Faculty — CLASSICAL
- Element 6: School Parents & Community — CLASSICAL

Aggregate ranking: CLASSICAL

Rationale - Across all six categories, Veritas Academy CA 92122 demonstrates classical markers: explicit Christian/metaphysical framing, formation-centered aims, a Trivium/Quadrivium curriculum, age-appropriate contemplative and dialogic pedagogy, faculty as core to the living curriculum, and a robust, parent-inclusive community model. The site’s content aligns with the canonical signals in the knowledge-base lexicon (e.g., Trivium/Quadrivium, memory-based pedagogy, Socratic seminars, rhetoric, formation, partnership with families). The combination of these signals yields a high-confidence CLASSICAL classification.

What would move the needle - Not applicable (the school is classified as CLASSICAL). If a future update sought to move toward deeper alignment in any category, potential needle movers could include: - Explicitly naming and describing Great Books/Great Conversation as part of the curriculum to reinforce the liberal-arts humanities dimension (Element 3). - Expanding liturgical/community practices with explicit references to liturgy or communal worship in the daily routine (Element 1), if aligned with the school’s mission. - Providing direct, formal statements tying “truth, goodness, beauty” to classroom outcomes in measurable terms (Element 2).

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
