

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Veritas Academy of Tucson

School Website: <https://vatucson.com/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS: **MEMBER** SCL: **MEMBER**

Any school that belongs to the Association of Classical Christian Schools (ACCS) and the Society for Classical Learning (SCL) is, by definition, recognized as a classical school because both organizations require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

Veritas Academy of Tucson presents a robust Classical Christian program built on a University-Model Schooling framework. Public-facing materials consistently emphasize Christian, classical education, a Trivium-based curriculum, strong parental involvement, and a biblically grounded worldview. The school explicitly identifies as Christian, classical, and university-model, with stated aims to form virtuous learners who engage with great books and a historically rooted curriculum. These characteristics align strongly with classical education norms, and the school's own phrasing and curricular choices support a CLASSICAL designation across multiple rubrics. Evidence from the site highlights: a Christian worldview anchored in Scripture and theology (Bible, Christ, God) and classical elements (Trivium, Great Books, Latin, Western history), plus a public-facing model that foregrounds parental partnership and a college-preparatory cadence within the UMS framework. Some elements that could further strengthen the classical profile (and thus push categories toward a fuller, more explicit "classical" signal in every dimension) include more explicit liturgical/community practices within formal instruction and clearer articulation of the "living curriculum" language in public copy. Overall, Veritas Academy Tucson is best characterized as CLASSICAL, with strong fidelity to core classical norms and a clear, coherent pathway for growth toward deeper classical-school embodiment.

Executive Summary — Element-by-Element Snapshot

- Element 1: Religious and Metaphysical Foundations — CLASSICAL
- Evidence: Clear biblical/theological framing (Bible as authoritative, triune God, Christ; Biblical worldview) in public materials; explicit theology integrated with the school's mission and beliefs.
- Positive/Negative keyword analysis: Positive terms include Bible, God, Christ, gospel/theology, worship, creed, etc. Negatives (e.g., relativism) are not overt in the public copy. Estimated positives:high; negatives:low/none.
- Why this rating: The school grounds its identity in biblical theism and a theologically oriented moral order, consistent with transcendental moral realism and theological grounding called for in the Six Essential Elements lexicon. Evidence of liturgical/community rhythm is present in worship-leaning culture and faith-anchored beliefs.
- Element 2: Purpose and Goal — CLASSICAL
- Evidence: The mission/vision emphasizes formation, virtue, wisdom, and a telos oriented toward truth, goodness, and beauty; formation over mere information; emphasis on liberal education and moral imagination.
- Positive/Negative keyword analysis: Keywords such as formation, virtue, wisdom, telos, and contemplation appear in public materials; explicit focus on formation and virtue aligns with the classical-

purpose lexicon. Minimal signs of a career-ism or workforce-primacy framing in public text. Estimated positives: medium-high; negatives:low.

- Why this rating: The school's stated aims center on human flourishing, virtue, and a classical mission, not merely job-readiness or utilitarian outcomes, which maps to CLASSICAL in the rubric.
- Element 3: Curriculum — CLASSICAL
- Evidence: Public materials describe a liberal-arts framework (grammar, logic, rhetoric), threefold Trivium progression, study of great books, Latin, Western history, and integration of literature/theology across cycles; emphasis on reading Great Books and a unified, historical curriculum.
- Positive/Negative keyword analysis: Positive terms include Trivium, Great Books, classical curriculum, grammar/logic/rhetoric, Western Civilization, primary sources, Latin, and history through time; negative signals (e.g., replacing history with social studies) are not dominant in public copy. Estimated positives: high; negatives: low/none.
- Why this rating: The curriculum is squarely built on liberal-arts, Great Books, and the Trivium, with explicit attention to history and canon literature, which is quintessentially CLASSICAL.
- Element 4: Pedagogy or Teaching Methods — CLASSICAL
- Evidence: Pedagogical notes show a progression from contemplative "Scholé"-style elements to Socratic-style upper-division discussions (inferred via Trivium stages and rhetoric emphasis); lower grades emphasize memory, chant, and recall; upper grades emphasize rhetoric, speeches, and discussion-based enquiry.
- Positive/Negative keyword analysis: Positive signals include Socratic/dialectic, memorization/recitation, rhetoric, and the Trivium stages; there is a clear emphasis on contemplative/restful elements in places, and a public emphasis on memory work and classical pedagogy. Negative signals (e.g., project-based-only, purely student-directed) are not prominent in public text; Hands-on learning and at-home components are described as part of the model, not as a replacement for classical pedagogy. Estimated positives: medium-high; negatives:low.
- Why this rating: The pedagogy mirrors classical patterns—memory, recitation, dialectic, rhetoric—and upper-level seminars/debates; lower-school memory and musical recitation align with scholé/contemplative elements rather than a purely constructivist approach. The overall pattern supports CLASSICAL.
- Element 5: Faculty — CLASSICAL
- Evidence: The school emphasizes teachers as partners in the learning journey, teacher-parent collaboration, and formation of character as part of the curriculum; the University-Model pedagogy implies a living, collaborative faculty role and a strong teacher-student relationship, consistent with the "living curriculum" and mentoring character.
- Positive/Negative keyword analysis: Positive signals include "teacher-parent integrated instructional approach," collaborative/mentoring stance, and living curriculum motifs in the public materials; explicit language about the "portrait of a teacher" or formal faculty-living-curriculum language is not overt in posted copy, but the described model implies these classical-faculty ideals. Estimated positives: medium; negatives:low.
- Why this rating: The faculty model reflects a virtuous-teacher-as-mentor orientation and classic faculty-culture emphasis, which aligns with CLASSICAL.
- Element 6: Parents & Community — CLASSICAL
- Evidence: The University-Model approach foregrounds parental involvement as a core structure (teacher-parent integrated instructional model); public statements emphasize partnership with families, and mission/vision materials frame parents as co-educators with institutional duties. Admissions

materials emphasize parental involvement and interviews; community-building language appears in mission statements.

- Positive/Negative keyword analysis: Positive keywords include partnership with families, co-teachers, parental involvement, home-school integration; the materials advocate parent formation via the UMS model; negative signals (consumer language, minimal parent involvement) are not present in the public copy. Estimated positives: medium-high; negatives: low.
- Why this rating: The school treats parents as central collaborators in education, consistent with classical-parent partnership norms and a public-facing ethos of family formation and engagement.

Aggregate Ranking: CLASSICAL

- The school demonstrates high alignment with core classical criteria across all six categories: a biblically grounded, theologically informed foundation; formation-focused purpose; curriculum built around Trivium, Great Books, and Western history; pedagogy that blends memory, recitation, dialectic, and rhetoric; a faculty model oriented to mentoring and a living curriculum; and a strong, explicit partnership with parents and community. The aggregate weight of these signals places Veritas Academy Tucson solidly in CLASSICAL territory.

What would move the needle

- If the aim were to pursue a fuller, universal CLASSICAL signal across every sub-criterion, the following refinements could help:
- Amplify explicit liturgical/community practices in public pages to more clearly signal liturgy and communal worship as formal educational components (beyond general Christian formation). This would strengthen Element 1 (Religious and Metaphysical Foundations) and link more directly to liturgical-communal practices in the lexicon.
- Make the “living curriculum” language explicit in public materials (e.g., teacher-mentorship language and faculty-as-living-curriculum statements) to further solidify Element 5 (Faculty) signals.
- Increase explicit documentation of Socratic seminars, dialectic discussions, and upper-level rhetorical projects as formal, visible pedagogy in public content to reinforce Element 4 (Pedagogy) with sharper public signals of Socratic discourse and rhetoric as a continuous thread through K-12.
- While the Great Books and Trivium elements are present, a public-facing, recurring articulation of a formal “Great Conversation” cadence across grades (e.g., scheduled Great Books units, primary-source emphasis) would push Element 3 (Curriculum) and Element 4 (Pedagogy) further toward a fully explicit classical profile.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
