Six Elements of Classical Education School Website Audit

School: Veritas Classical Schools of North Georgia
School Website: <https://veritasnga.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

Overall Classification: CLASSICAL**Executive Summary**

Veritas Classical Schools Of North Georgia (Veritas NGA) presents a strongly classical Christian program. Public-facing materials emphasize gospel-centered biblical formation, integration of faith and reason, a liberal-arts-inspired curriculum (grammar, logic, rhetoric; classical languages; Great Books), and a relational, mentoring faculty model in a church-connected, family-partnered hybrid model. Across categories, the school aligns with core classical principles (truth, goodness, beauty; virtue formation; Great Books and history integration; the grammar–logic–rhetoric axis; faculty as mentors; parent partnership). The aggregate ranking is CLASSICAL, with a notable emphasis on formation, Great Books, and liturgical/community practices. The Pedagogy category shows some classical elements, but explicit Socratic/seminar pedagogy is not overt in public materials, placing Element 4 as SOMEWHAT CLASSICAL rather than fully Classical. No category signals undermine classical aims; the overall profile remains firmly classical.

- Executive takeaway: Veritas NGA clearly embodies core classical features (catechetical grounding in scripture; Great Books; liberal-arts structure; formation and virtue emphasis; strong faculty-student mentorship; parent partnership). The principal area for needle-moving improvement would be to make explicit, high-school–level Socratic/seminar practice and explicit scholé-oriented pedagogy in public-facing materials to solidify the upper-school classical pedagogy claim.
- What would move the needle (for SOMEWHAT CLASSICAL cases): explicitly articulate Socratic/seminar-based pedagogy in upper grades; increase explicit memory-work/chanting traditions (Scholé) in lower grades; foreground “Great Books” conversations and model dialogues in daily practice; strengthen evidence of contemplative/restful learning days in curriculum descriptions.

Evidence for these conclusions is drawn from Veritas NGA's public materials (e.g., gospel-centered, biblical formation; Great Books; grammar/logic/rhetoric; liturgical/community practices; parental partnership) and cross-referenced with the classical education rubric and keyword indicators from the Six Essential Elements of a Classical School documents.

Citations and direct textual anchors from the school materials appear throughout the category-by-category sections below to ground each finding.

- Core public statements establishing classically framed, faith-informed aims: “Rooted in biblical principles, we provide a classical Christian education in the American tradition” and “pursuing gospel-centered, classical Christian education”.
- Scriptural and liturgical emphasis (Word of God, Scripture, chapel): “Here, your children will study God’s Word, explore essential doctrines of the faith, and cultivate moral virtue through the lens of our Christian worldview” and “Through chapel, projects, and discipleship”.
- Great Books and Great Conversation; liberal-arts emphasis: “the Great Books that have shaped Western civilization” and “grammar, logic, and rhetoric” and “classical history, literature, theology, and apologetics”.
- Formation and virtue language; partnership with families and parents: “formation of virtue,” “cultivate moral virtue,” “partner with families,” and “parents... primary God-ordained educators”.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence - The school presents a gospel-centered, biblical formation framework. Text explicitly notes gospel-centered, classical Christian education rooted in Scripture and Church history. - Public materials describe Scripture/the Word of God as central to education; theology and doctrinal study appear in core materials. - Liturgical/community practices are evident via references to chapel and religious community life.

Positive/Negative Keyword Analysis - Positive indicators present: gospel-centered; biblical truth; Scripture; Word of God; chapel (liturgical/community). - Negative indicators: none detected in public materials.

Count and Ratio - Positive keywords present: 5+ - Negative keywords present: 0 - Ratio: effectively 100% positive, 0% negative.

Why this rating - The materials consistently anchor education in transcendent truths (truth, goodness, beauty in a theological framework; Scripture as the source of knowledge) and explicitly reference liturgical/community worship practices. This aligns with Transcendental Moral Realism, Grounded Theology, and Liturgical/Communal Practices described in the Six Essential Elements rubric.

Evidence anchors: gospel-centered phrasing; Word of God; Scripture; chapel references.

Element 2: School Purpose and Goal — CLASSICAL

Evidence - The program emphasizes formation/virtue and wisdom rather than mere information, including the claim that education yields human flourishing and virtue. Public materials consistently describe virtue, wisdom, and formation as aims. - Great Books and the Great Conversation frame education as formation through engagement with enduring texts; ongoing integration of faith and reason is stated. - Explicit articulation that truth, goodness, and beauty are real and knowable; educational aim includes shaping character and leadership.

Positive/Negative Keyword Analysis - Positive indicators present: formation; virtue; wisdom; Great Books; truth/goodness/beauty; integration of faith and reason. - Negative indicators: none detected.

Count and Ratio - Positive keywords present: 5–6 - Negative keywords present: 0 - Ratio: 100% positive, 0% negative.

Why this rating - The materials consistently present formation (not just information), cultivation of virtue/wisdom, and affirmation of real truths and enduring ideals (truth, goodness, beauty), consistent with the classical telos and human excellence framing.

Evidence anchors: formation; virtue; Great Books; objective True/Good/Beautiful; faith-and-reason integration.

Element 3: School Curriculum — CLASSICAL

Evidence - The curriculum is clearly framed around liberal arts and the Trivium (grammar, logic, rhetoric) and Quadrivium (arithmetic, geometry, music, astronomy) in the public materials; the site emphasizes Great Books and Western civilization. - There is explicit mention of classical history, literature, theology, and apologetics; classical languages are highlighted as part of the program. - The Great Books/Great Conversation concept is a recurring theme in the curricular description.

Positive/Negative Keyword Analysis - Positive indicators present: Seven Liberal Arts (grammar, logic, rhetoric); Great Books; Great Conversation; classical history; classical languages; theology/apologetics. - Negative indicators: none detected.

Count and Ratio - Positive keywords present: 5–6 - Negative keywords present: 0 - Ratio: 100% positive, 0% negative.

Why this rating - Curriculum materials align with the classical curriculum blueprint (grammar/logic/rhetoric; history through Great Books; study of classical languages; integration of theology). This is a strong fit for the “Curriculum” criteria in the classical rubric.

Evidence anchors: grammar/logic/rhetoric; Great Books; history/Western civilization; classical languages; Great Conversation.

Element 4: School Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence - The program emphasizes formation through faith and reason and uses a classical framework in pedagogy (grammar/logic/rhetoric; great books; history integration). - Public materials mention mentoring relationships and a community-centered approach, with chapel, projects, and discipleship as modalities. - However, explicit, public-facing statements about Socratic seminars, disciplined use of memory work, or formal Scholé days (contemplative/restful learning) are not clearly stated in the public pages. The Great Books/Conversations are referenced, but explicit Socratic seminar pedagogy or the full range of classical pedagogical methods are not uniformly articulated in the public content. This reduces the category from fully CLASSICAL to SOMEWHAT CLASSICAL.

Positive/Negative Keyword Analysis - Positive indicators present: grammar, logic, rhetoric; Great Books; Great Conversation; mentoring relationships; chapel/discipleship (integrative, contemplative elements). - Negative indicators: explicit mentions of Socratic seminars, ritualized memorization/recitation, and explicit scholé/restful days are not clearly present; project-based learning is present but not described as dominant, and explicit rest/Scholé is not foregrounded.

Count and Ratio - Positive keywords present: 3–4 (grammar/logic/rhetoric; Great Books; Great Conversation; mentoring; chapel/discipleship) - Negative keywords present: 1–2 (absence of explicit Socratic/seminar framework; absence of explicit Scholé/restful pedagogy) - Ratio: a mix but leaning classical; overall assessment leans toward SOMEWHAT CLASSICAL due to the lack of explicit, public Socratic/seminar pedagogy and Scholé framing.

Why this rating - The curriculum and explicit classical vocabulary are strong, but the pedagogy section does not consistently present explicit Socratic/seminar practices, nor a fully articulated restful/scholé approach in public-facing statements. These gaps place Pedagogy in the SOMEWHAT CLASSICAL zone rather than fully CLASSICAL.

Evidence anchors: explicit mention of grammar/logic/rhetoric; Great Books/Great Conversation; mentoring and chapel.

Element 5: Faculty — CLASSICAL

Evidence - The materials describe faculty as mentors who model virtue, skill, and knowledge; they are the core of the school’s living curriculum and community, with small class sizes enabling mentoring relationships. - The site emphasizes that faculty are “experts in their field and committed followers of Christ” and that smaller class sizes foster mentoring relationships, aligning with the living-curriculum and mentor-rapport ideal from classical education sources. - The knowledge-base rubric (Six Essential Elements) identifies the living curriculum and portrait of teacher ideals as elements of classical schooling, which aligns with the school’s stated faculty role; this is corroborated by the classical-lexicon entries describing “the living curriculum” and “model teachers/mentors.”

Positive/Negative Keyword Analysis - Positive indicators present: mentor/teacher as exemplar; living curriculum; portrait of teacher; small classes fostering mentoring relationships; faculty as core to school culture. - Negative indicators: none detected in public materials.

Count and Ratio - Positive keywords present: 4–5 (mentor/virtuous teacher; living curriculum; core/friendship model; small classes; dedicated faculty) - Negative keywords present: 0

Why this rating - The public materials consistently present a faculty ethos aligned with classical ideals: teachers as virtuous exemplars, mentors, and living curriculum; small-class mentoring relationships; clear

portrayal of faculty as the central educational force.

Evidence anchors: “mentoring relationships between teachers and students”; “living curriculum” phrasing; faculty as experts and Christ-centered guides.

Element 6: Parents and Community — CLASSICAL

Evidence - Veritas NGA frames itself as a gospel-centered classical education that partners with churches and homeschooling families, explicitly recognizing parental primacy in education and offering a hybrid model designed to support family-based formation. - The site emphasizes partnership with families and character formation, including language about parents as co-educators and a partnership model, with explicit statements about parental responsibility and family involvement in the education process. - Admissions and enrollment materials describe parental partnership and joint decision-making, and there are references to parent involvement in the education/discipline process.

Positive/Negative Keyword Analysis - Positive indicators present: partnership with families; parents as co-educators; parental formation/resources; opportunities for parent involvement; home-education and hybrid model; parental primacy in education. - Negative indicators: none detected publicly.

Count and Ratio - Positive keywords present: 4–5 - Negative keywords present: 0

Why this rating - The school explicitly positions parents as primary educators and as partners in formation, consistent with classical “Parents and Community” expectations in the Six Essential Elements. The hybrid model further reinforces parental primacy and ongoing parent formation/involvement.

Evidence anchors: partnership with families; parents as co-teachers; parent formation resources; open-campus potential (visitor-friendly culture).

Aggregate Assessment - Overall classification: CLASSICAL - Category-by-category verdicts: - Religious and Metaphysical Foundations: CLASSICAL - School Purpose and Goal: CLASSICAL - School Curriculum: CLASSICAL - School Pedagogy or Teaching Methods: SOMEWHAT CLASSICAL - Faculty: CLASSICAL - Parents and Community: CLASSICAL

Executive synthesis - Veritas NGA exhibits a robust classical education profile rooted in biblical faith, the Great Books tradition, liberal-arts curriculum, and a mentorship-driven faculty model. The main gap is explicit, public-facing articulation of Socratic/seminar pedagogy and Scholé/restful learning practices in upper grades, which places Pedagogy as SOMEWHAT CLASSICAL rather than fully Classical. The rest of the framework—curriculum, faculty, parental partnership, and religious foundation—strongly supports a Classical evaluation.

What Would Move the Needle - For Element 4 (Pedagogy) to move from SOMEWHAT CLASSICAL to CLASSICAL: - Publicly articulate explicit Socratic/seminar-based pedagogy for upper grades (discussion-based inquiry, dialectic, etc.). - Highlight structured memory work, recitation, chanting, or other Scholé-like practices in lower grades. - Show concrete, day-by-day articulation of how Great Books are integrated into Socratic dialogue and how disciplines interweave in a truly integrated, dialogic classroom. - Emphasize contemplative/restful learning days as a regular component of the schedule, linking to the Scholé tradition.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
