

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: Veritas Preparatory School
School Website: <https://www.veritasfallon.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS MEMBER

Any school that belongs to the Association of Classical Christian Schools (ACCS) is, by definition, recognized as a classical school because ACCS require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: CLASSICAL

Executive Summary

Veritas Preparatory School NV 89406 (Fallon, NV) presents itself publicly as a classical Christian school serving Kindergarten through 8th grade, with a stated aim to form character through classical education "to the glory of God" and a Christ-centered approach. The site emphasizes a Trivium-based curriculum (grammar, logic, rhetoric) and a joyful, virtues-centered classroom culture, along with Bible-based authority and small-class learning. This combination signals a strongly Classical (and explicitly Christian) orientation in line with the core Classical School rubric.

Evidence from public materials shows:

- Religious/metaphysical framing and theology-integrated purpose (God-centered education; Bible as final authority; Soli Deo Gloria) anchored in a classical framework.
- A clear emphasis on virtue, beauty, truth, and goodness as ends of education, with formation emphasized over purely informational aims.
- A curriculum described in terms of the Trivium (grammar, logic, rhetoric) and a commitment to classical educational architecture, but with no explicit public claim of Great Books or a full Great Conversation on the site.
- Faculty described as experienced and capable; "experienced teachers" with a mentoring framework.
- Limited public emphasis on parents as co-educators or a formal community-partnership program on the site itself, though classical-education materials elsewhere emphasize parent involvement and partnership.

Quantitatively, the site demonstrates strong positive indicators in Religious/Metaphysical Foundations, Purpose/Goal, and Faculty, with clear but partly incomplete evidence for Curriculum (no explicit Great Books or history integration stated on the site) and Parents/Community (public materials do not foreground parent partnership). When benchmarked against the Six Essential Elements of a Classical School rubric, the school overall aligns closest to CLASSICAL, with some gaps that prevent a full endorsement in every category without additional public evidence.

Overall ranking: CLASSICAL.

ABSTRACT

ed highlights by category and supporting evidence follow.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — CLASSICAL

Evidence

- The school identifies itself as a classical Christian school with a God-centered framing: “A classical Christian school to the glory of God,” and references to Christ-centered education and biblical authority.
- Public statements cite the Bible as the final authority on faith and practice, and the community embraces Soli Deo Gloria (glory to God).
- The transformed life in Christ is referenced as part of its mission; the ethos is explicitly Christ-centered.

Positive/Negative keyword analysis

- Positive keywords present: classical Christian, glory of God, Bible as final authority, Soli Deo Gloria, Christ-centered, gospel-centered language (transformed life in Christ).
- Negative keywords: None evident in the public-facing materials.

Why this rating

- The combination of explicitly Christian theological framing, worship-like/communal signals, and a public emphasis on virtue and truth offers a robust religious/metaphysical foundation aligned with classical education’s transcendent aims. This category is CLASSICAL.

Citations: Veritas Fallon site content describing “A classical Christian school to the glory of God” and Bible-based authority.

Element 2: School Purpose and Goal — CLASSICAL

Evidence

- The school’s stated aim centers on forming character and moral intuitions through a classical framework, with phrases like “cultivating a love for truth, beauty, and goodness” and “joyful, vigorous approach to academics.”
- The stated purpose emphasizes virtue and wisdom as ends of education and references the Trivium as the developmental scaffold for schooling. The Aristotle quote on educating the heart alongside the mind also signals formation over mere information.

Positive/Negative keyword analysis

- Positive keywords present: virtue, wisdom, truth, goodness, beauty, formation, Trivium, character formation, life-long aims.
- Negative keywords: None explicit for this category in public materials.

Why this rating

- The public-facing mission centers on formation of virtue and wisdom, not just content delivery or job preparation, which is central to Classical education. The emphasis on truth/beauty/goodness and formation supports CLASSICAL.

Citations: Veritas Fallon site content illustrating “cultivating a love for truth, beauty, and goodness” and reference to the Trivium.

Element 3: Curriculum — SOMEWHAT CLASSICAL

Evidence

- The site identifies a classical curriculum rooted in the Trivium (grammar, logic, rhetoric) and notes a “classical education” approach. This aligns with core classical elements.
- There is no explicit public mention of Great Books, Great Conversation, or broad Great Books reading across the curriculum on the site. The absence of these explicit Great Books signals a partial alignment with classical curricula that typically foreground original texts and historical engagement. This gap is reinforced by standard Classical indicators which emphasize Great Books as part of a full classical curriculum.
- The site emphasizes virtue and formation, and a Trivium-based structure, but does not publicly spell out complete history coverage or integration of Great Books across the curriculum. The public materials thus show partial alignment with the curriculum criteria.

Positive keywords

- grammar, logic, rhetoric (Trivium)
- classical education
- history hinted via “Trivium stages” and general classical framing

Negative keywords

- Lack of explicit Great Books / Great Conversation mention
- No explicit statement of history through curriculum or integrated history-literature approach on the site

Quantitative keyword analysis

- Positive keywords observed: 2 (grammar, logic, rhetoric collectively treated as Trivium; plus “classical education” framing)
- Negative keywords observed: 1 (absence of Great Books / Great Conversation explicit mention)
- Proportional readout: Positive 2 of 3 visible items ~ 66.7%; Negative 1 of 3 ~ 33.3%

Why this rating

- While the Trivium-based curriculum and classical framing are strong positives, the absence of explicit Great Books engagement and stated history-integrated pedagogy lowers the category to SOMEWHAT CLASSICAL rather than CLASSICAL. The school demonstrates strong classical foundations but lacks explicit public articulation of the full Great Books/Great Conversation component that is often central to the classical school rubric.

Citations: Veritas Fallon site describing “classical Christian education” and Trivium emphasis. Note: The absence of Great Books explicit mention aligns with the lack of Great Books language found in the same public materials and is supported by standard classical education rubrics that emphasize Great Books as a core element. See the comparative material on Great Books from the Six Essential Elements document.

Element 4: Pedagogy or Teaching Methods — SOMEWHAT CLASSICAL

Evidence

- Public materials emphasize a Trivium-based framework (grammar, logic, rhetoric) which implies a structured developmental pedagogy, but there is no explicit detailing of Socratic dialogue, Scholé (restful learning), memorization/recitation, or upper-school rhetoric and public-speaking opportunities on the site itself. The site does not clearly describe lower-school singing/chanting or upper-school Socratic seminars.
- The absence of explicit statements about contemplative/restful pedagogy (Scholé) and direct mention of memorization or recitation practices on the site results in an incomplete public picture for Pedagogy.

Positive keywords (as per general Classical Pedagogy indicators)

- Trivium (grammar/logic/rhetoric) as a pedagogical framework

Negative keywords

- No explicit mention of Socratic dialogue, Scholé, memorization/chanting practices, or upper-school rhetoric sessions on the site
- No explicit lower-school singing/chanting described publicly

Quantitative keyword analysis

- Positive keywords observed: 0–1 clearly explicit (Trivium’s existence is implicit in the curriculum section, but explicit pedagogy signals like Socratic dialogue or rote chanting are not stated on the site)
- Negative keywords observed: 0 explicit negative signals in public materials, but absence of explicit positive pedagogy signals (Socratic/Scholé/memorization) is noted
- Net: The page gives partial alignment through Trivium framing, but lacks the explicit pedagogy signals named in the classical rubric.

Why this rating

- The presence of a Trivium-based curriculum signals classical intent, but the absence of explicit public statements about traditional pedagogical practices (such as Socratic seminars, Scholé, and memorization-chanting) prevents a full CLASSICAL rating in Pedagogy. Given that the school ends at 8th grade, the rubric acknowledges that full high-school Socratic pedagogy is not mandatory; however, the lack of explicit lower- and middle-school learning rituals (singing/recitation, restful learning) keeps this at SOMEWHAT CLASSICAL rather than CLASSICAL.

Citations: Veritas Fallon site references to “Trivium” and classical framing. Supportive framework references: Six Essential Elements Pedagogy indicators (Socratic, Scholé, memorization, formation through imitation).

Element 5: Faculty — CLASSICAL

Evidence

- The site highlights trained, experienced teachers: “EXPERIENCED TEACHERS – Veritas Prep teachers have a combined 80+ years of teaching experience. New teachers participate in a mentoring plan.” This signals a robust, mentor-like faculty culture.
- The language around faculty emphasizes a long-term, professional commitment and a nurturing pedagogy, which aligns with the “living curriculum” and “faculty as core of the school” ideals of classical education (as described in the Six Essential Elements material).

Positive keywords

- experienced teachers
- mentoring plan
- teachers passing on knowledge and passion
- living-curriculum style (implied by the mentoring/long-tenured faculty language)

Negative keywords

- The public materials do not explicitly provide a formal “profile of what a teacher should be” or a named “portrait of teacher and student”—though the mentoring and experience language is suggestive.

Why this rating

- The explicit emphasis on highly experienced teachers and a mentorship framework supports CLASSICAL in the Faculty category. The absence of a formal “living curriculum profile” on the site does not detract enough to downgrade this category, given the strong qualitative indicators present.

Citations: Veritas Fallon site content on experienced teachers and mentoring.

Element 6: Parents & Community — NOT CLASSICAL**Evidence**

- Public site content emphasizes enrollment and contact but does not foreground a formal partnership with parents as co-educators, or structured parent education/gatherings, which are central to the classical model in the broader literature (e.g., ParentU materials and explicit claims about parent involvement appear in related classical-education literature rather than as public materials on this Fallon site). The school's own public materials do not highlight a formal "parents as co-teachers" stance or strong parent-education initiatives.
- The absence of explicit statements about parent partnerships, parent education, or open house formats designed to recruit and engage parents as co-educators is notable. Public-facing materials are more focused on school ethos, teacher quality, and religious framing than on parent formation or school-parent collaboration.

Positive keywords (from the Six Essentials "Parents & Community" indicators)

- Partnership with Families
- Parent formation and training materials (as described in the broader classical-education literature)
- Parental involvement/engagement signals

Negative keywords

- Absence of explicit statements about parents as co-educators, formal parent education (book studies, gatherings), or ready access for parents to visit or participate in classrooms, beyond generic "open enrollment" language

Quantitative keyword analysis

- Positive keyword indicators present in public materials: 0–1 explicit instances (no direct ParentU, etc., on the Fallon site itself)
- Negative keyword indicators present: 1 clear absence signal (no explicit public claim of parent-partnership or parent-education programming)
- Net: NOT CLASSICAL for this category, given lack of explicit public-facing parent partnership/education signals.

Why this rating

- Classical practice often emphasizes partnership with families and ongoing parent formation; the Veritas Fallon public materials do not foreground these elements, which weighs toward NOT CLASSICAL in this category.

Citations: Fallon site content showing focus on school ethos, not explicit parent-education programs. Supplementary context (for the rubric, indicating expected parental partnerships in classical education): Six Essential Elements documentation on Parent partnerships and parent formation.

Aggregate Assessment

- Element 1: Religious and Metaphysical Foundations — CLASSICAL
- Element 2: School Purpose and Goal — CLASSICAL
- Element 3: Curriculum — SOMEWHAT CLASSICAL
- Element 4: Pedagogy — SOMEWHAT CLASSICAL
- Element 5: Faculty — CLASSICAL
- Element 6: Parents & Community — NOT CLASSICAL

Overall, Veritas Preparatory School NV 89406 shows a robust classical and Christian orientation with clear positive signals in religious/metaphysical foundations, purpose/goal, and faculty. The curriculum and pedagogy show strong classical intent through Trivium alignment but lack explicit Great Books/Great Conversa-

tion articulation and explicit, public-facing pedagogy (such as Scholé, Socratic seminars, or memorization chants). Public materials do not foreground a formal partnership with parents or a robust parent-education program, which weighs on the Parents & Community category. Taken together, the school is best characterized as CLASSICAL, with notable room for strengthening in Curriculum specificity (Great Books/Great Conversation emphasis) and in the explicit engagement of parents and the broader community.

What would move the needle (only if the school were SOMEWHAT CLASSICAL)

- Publicly articulate and publish a Great Books/Great Conversation component within the curriculum, including representative titles and reading plans.
 - Publicly describe explicit pedagogical methods aligned with Scholé (restful learning) and/or Socratic seminars appropriate to K–8, along with details on memory work or chanting if used.
 - Establish and highlight a formal partnership with families, including parent involvement programs, book studies, and regular parent-visitation or volunteer opportunities.
-

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
