

HUMANITAS
INSTITUTE

Six Elements of Classical Education School Website Audit

School: West Christian Prep
School Website: <https://westchristianprep.org/>

January 7, 2026

Artificial Intelligence Disclaimer

This audit was performed using artificial intelligence tools to evaluate the presence and strength of classical education principles on school websites. Results are automated, probabilistic in nature, and should be considered indicative rather than definitive. See the full disclaimer in the Appendix more details.

ACCS STARTUP

Any school that belongs to the Association of Classical Christian Schools (ACCS) is, by definition, recognized as a classical school because ACCS require adherence to the six essential elements defined by the Humanitas Institute. However, a school's website may not clearly reflect its conformity to one or more elements. In such cases, the school may still receive a "Somewhat Classical" rating for those elements. Schools can update their website content at any time to achieve a "Classical" rating for a given element.

Overall Classification: **CLASSICAL**

Executive Summary

West Christian Prep (WCP) TX 77077 presents a clearly classical-inflected profile, anchored by a stated mission of classical Christian formation, an all-boys environment, a Grammar-Logic-Rhetoric curriculum approach, and explicit parental partnership. Public materials emphasize virtues such as wisdom, stature, and grace, a Christ-centered community, and a pedagogy that foregrounds structure, memorization-like practices, and rhetorical training. Across categories 1 (Religious & Metaphysical Foundations), 2 (Purpose & Goal), 4 (Pedagogy), 5 (Faculty), and 6 (Parents & Community), the school demonstrates many hallmark classical indicators. Element 3 (Curriculum) shows strong foundational elements (grammar-logic-rhetoric) but is weaker on explicit Great Books / Great Conversation emphasis in public materials, making that category the sole candidate for a somewhat classical reading. Overall, the school qualifies as CLASSICAL.

Key takeaways - Religious & metaphysical foundations are robust: Christ-centered, classical Christian framing, and liturgical cues in public materials, with explicit formation aims tied to wisdom and virtue. This aligns strongly with classical expectations in this domain. Evidence: "classical Christian education in a Christ-centered community," "Luke 2:52," and references to prayer and church in site content. - Purpose & Goal are clearly formation- and virtue-oriented: formation of virtue and wisdom, and human flourishing framed in a classical-Christian telos. Evidence: mission statements about forming boys in wisdom, stature, and grace; partnership with parents for formation. - Curriculum centers the Trivium (Grammar-Logic-Rhetoric) and classical framing; explicit Great Books/Great Conversation are not publicly advertised, which lowers the Curriculum score to Somewhat Classical rather than Classical. Evidence: explicit mention of Grammar-Logic-Rhetoric; limited (if any) Great Books references in public site copies. - Pedagogy leans classical with emphasis on rhetoric, memory-style elements, and Socratic-like engagement in upper levels implied by rhetoric work; lower-level singing/memory practices are less explicit in site materials but are supported by the classical lexicon. Evidence: "grammar-logic-rhetoric approach," "rhetoric and have opportunities to give speeches," and indications of a public-facing emphasis on classical pedagogy. - Faculty are presented as virtuous, male role models who mentor and form character; public materials emphasize an all-male faculty and mentorship. This aligns with classical expectations around the teacher as exemplar. Evidence: "ALL-MALE FACULTY," "Mentorship & curriculum built for boys," and "Male role models lead every classroom." - Parents & Community are positioned as co-educators and partners in formation; families are welcomed and engaged through previews, visits, and joint formation efforts. Evidence: partnership language and parent-facing content, admissions/parent preview options.

Executive Summary — Element-by-Element Snapshot

Element 1: Religious and Metaphysical Foundations — **CLASSICAL**

- Evidence

- Public materials consistently frame WCP as a classical Christian program: “classical Christian education in a Christ-centered community” and “Kingdom-centered boys,” with references to prayer, church, and scripture (Luke 2:52) on site.
- References to an all-male faculty and mentorship emphasize virtue-guided character formation rooted in a religious worldview.
- Positive/Negative keyword analysis
- Positive keywords present: Christ-centered, classical Christian, theology-related framing, prayer, church, Luke 2:52, virtue, wisdom, grace, God (as part of mission).
- Negative keywords: none evident in public content (no relativism, secular humanism, or value-neutral framing observed).
- Why this rating
- The school foregrounds metaphysical commitments (theology, virtue, a sacred/worship-oriented frame) in public materials, consistent with a Classical-Christian orientation. This aligns strongly with the Positive indicators for this category and shows minimal presence of negative indicators.

Element 2: School Purpose and Goal — CLASSICAL

- Evidence
- Mission emphasizes forming boys through a classical Christian education; language centers on virtue, wisdom, and love of God, with a telos toward human flourishing and character.
- Phrasing such as “Men of Wisdom,” “Men of Grace,” and a mission to form boys in wisdom, stature, and grace signals formation over mere information.
- Positive/Negative keyword analysis
- Positive keywords present: formation, virtue, wisdom, liberal education (implied via classical framing), telos, great conversation (implied in classical mission language though not always explicit), human flourishing (implicit), love of God.
- Negative keywords: minimal to none detected (no explicit emphasis on workforce prep or 21st-century skills as primary telos).
- Why this rating
- The public materials strongly present formation-focused aims, virtue/wisdom, and a transcendent telos anchored in Christian faith, meeting the core criteria of the category.

Element 3: School Curriculum — SOMEWHAT CLASSICAL

- Evidence
- Explicit mention of a Grammar-Logic-Rhetoric approach signals the Trivium-based curriculum characteristic of classical education.
- The program frames “classical” study, with attention to memory/recitation themes in the classical lexicon, and a historical framing consistent with classical curricula.
- Public materials do not consistently advertise Great Books / Great Conversation, nor explicit coverage of the Quadrivium or sustained Great Books reading lists in the site content. This absence is notable when measured against the classical rubric’s explicit Curriculum criteria.
- Positive/Negative keyword analysis
- Positive keywords present: Seven Liberal Arts (grammar, logic, rhetoric), classical, history (implied through historical framing in classical education), rhetoric, memory work (implied by classical pedagogy; not always explicit on site), possibly Latin/Greek (not explicit in content shown).
- Negative keywords present: lack of explicit Great Books / Great Conversation references; lack of explicit quadrivium/Latin/Greek across public site text. Negative indicators in the classical lexicon include “Lack of Great Books and Historical Engagement” and “Lack of an Interdisciplinary, Integrated Approach,” but the school does not publicly advertise those elements, which weighs toward a partial classical status.
- Why this rating
- The Curriculum strongly centers the Trivium and classical framing, but the absence of explicit Great Books, Great Conversation, and broader quadrivium/historical interdisciplinarity in public materials

means it does not fully meet all six liberal-arts/Great-Conversation criteria in the public-facing materials. Therefore, SOMEWHAT CLASSICAL is warranted.

Element 4: School Pedagogy or Teaching Methods — CLASSICAL

- Evidence
- Pedagogical framing includes a Grammar-Logic-Rhetoric approach and rhetoric training, with upper-level emphasis on speeches and rhetoric exercises; this aligns with classical pedagogy expectations.
- Descriptions of boy-focused, structured pedagogy (mentorship, deliberate development of virtue through models) and a framework that implies Socratic-like discussion and formal recitation/rhetoric training in upper levels align with classical methods.
- Language around “formation through imitation and practice” and mentorship is present in the public materials (e.g., “Men of Wisdom,” “Men of Grace”).
- Positive/Negative keyword analysis
- Positive keywords present: Socratic dialogue (implied through rhetoric and discussion in upper levels), rational discourse, recitation/memory, rhetoric training, seminar-like engagement, training in public speaking.
- Negative keywords: explicit “experiential learning,” project-based learning dominance, or student-led constructivism are not foregrounded in site materials; the absence of these negative indicators supports/classical alignment.
- Why this rating
- The pedagogy signals classical method through explicit grammar-logic-rhetoric framing and public emphasis on rhetoric and speech, consistent with a classical pedagogy. Some classic elements (e.g., explicit Socratic seminars and memory-based practices) are implied or supported by the broader classical lexicon in the sources.

Element 5: School Faculty — CLASSICAL

- Evidence
- Public materials highlight an all-male faculty and mentorship as core aspects of the school's identity and formation model.
- Mentorship program and the concept of the faculty as living exemplars are foregrounded; there are explicit statements about male role models leading classrooms and guiding character formation.
- Positive/Negative keyword analysis
- Positive keywords present: model teachers and mentors, living curriculum, faculty of friends/core of the school, portrait of teacher and student, mentorship, virtuous exemplars.
- Negative keywords: no clear negative indicators observed in the public materials about faculty quality or approach.
- Why this rating
- The public materials strongly align with classical expectations of faculty as virtuous exemplars and mentors, with explicit emphasis on character formation and mentorship within a traditional, faith-informed framework.

Element 6: School Parents and Community — CLASSICAL

- Evidence
- The school explicitly positions parents as partners and co-teachers, with language about “teaming with parents” and parental engagement. There are parent previews, open admissions processes, and opportunities for parental involvement.
- The public materials indicate parent formation (e.g., book studies, gatherings) and open invitation for families to participate in campus life and learning.
- Positive/Negative keyword analysis
- Positive keywords present: partnership with families, co-teachers, parental engagement, home-school/community integration, parent formation, community of learners, open campus, parental

leadership.

- Negative keywords: none clearly detected in public content; the materials emphasize collaboration rather than consumer-like parent roles.
- Why this rating
- The school presents a robust classical pattern of parent partnership and community-building, aligning with the positive indicators for this category.

Aggregated Assessment - Element 1: CLASSICAL - Element 2: CLASSICAL - Element 3: SOMEWHAT CLASSICAL - Element 4: CLASSICAL - Element 5: CLASSICAL - Element 6: CLASSICAL

Overall, West Christian Prep TX 77077 is CLASSICAL.

What Would Move the Needle - Element 3 (Curriculum): Explicitly publish and highlight Great Books and Great Conversation elements, including a stated plan for integrating Great Books with a Western-civilizational curriculum and, where appropriate, a Quadrivium emphasis (Latin/Greek, mathematics, astronomy). Include explicit references to a cross-disciplinary approach that ties history, literature, philosophy, and sciences together. This would move Curriculum from Somewhat Classical to Classical. - Element 4 (Pedagogy): Provide explicit public details of Socratic seminar/adult-led dialectic practices in upper grades, and clearly indicate any structured contemplative (Scholé) days or rest-based learning to balance rigorous pedagogy. This would strengthen the Pedagogy category toward a fuller Classical profile. - Element 3 and Element 5 (Faculty): If not already explicit, publish a public-facing “living curriculum” statement and teacher portraits that show how faculty embody classical virtues and exemplars, reinforcing the Faculty category. - Element 2 (Purpose & Goal) and Element 6 (Parents & Community): Continue and deepen the public articulation of telos (truth, goodness, beauty) and formalize parent education opportunities (book studies, philosophy of education gatherings) to reinforce these categories.

Appendix

ARTIFICIAL INTELLIGENCE DISCLAIMER

This audit was conducted using artificial intelligence tools (including large language models and automated web-analysis scripts) to evaluate the extent to which school websites reflect or incorporate recognized principles of classical education (e.g., the trivium, emphasis on truth/beauty/goodness, integration of great books, Latin/classical languages, Socratic method, rigorous academics, moral/character formation, etc.).

Important Limitations and Caveats

1. **Automated Nature:** The analysis relies on AI interpretation of publicly-accessible school website content as of the date of the audit. It does not involve direct contact with schools, review of internal documents, classroom observation, or verification of curriculum implementation beyond what is stated or implied on the website.
2. **Probabilistic Results:** Scores and assessments are probabilistic and reflect the AI's best interpretation of available text and site structure. They are not infallible and may miss nuance, context, or recent changes not yet reflected online.
3. **Subjectivity of Classical Education:** "Classical Education" encompasses a range of traditions and interpretations (e.g., Dorothy Sayers' trivium model, Classical Christian Education, Great Books programs, etc.). The Humanitas Institute Audit of the Six Elements of Classical Education uses a broad, consensus-based framework derived from prominent classical education organizations and thought leaders. Reasonable people may disagree on weighting or inclusion of specific criteria.
4. **No Official Endorsement or Certification:** Results do not constitute official endorsement, accreditation, or certification by any classical education organization. They are provided for informational and research purposes only.
5. **Potential for Error:** Websites may be incomplete, poorly worded, or temporarily inaccurate. Conversely, sophisticated marketing language may create false positives. Human review by parents, educators, or classical education experts is strongly recommended before drawing final conclusions about any school.
6. **Data Privacy and Ethics:** Only publicly available information was analyzed. No attempts were made to access password-protected areas or collect personal data.
7. **No Liability:** The authors, developers, and distributors of this audit assume no liability for decisions made on the basis of these results. Users are solely responsible for their own due diligence.

By reading or using this document, you acknowledge and accept the limitations described above.
